Short History of the International Indecency Prevention Movement

Revered Pujya Shri Kumar Bhai , the Founder and Chief Director who was the talented writer, poet, orator, actor, director, educationist, social worker and philosopher got the idea of this Movement when he prevented a half naked dance programme of a girl in a stage at Bombay. He was stoned, but at last he was able to change the girl's heart. She promised never to dance such intoxicating vulgar dance any-more.

He first toured through different schools and colleges of India and presented high standard instructive but entertaining solo acting programmes in English, Hindi, Oriya and Bengali and requested all to prevent indecency in art, literature, drama and film. He was earning then rupees three hundred per hour for his solo acting Performance and he was acting for three to four hours nonstop.

He delivered a message everywhere "Bring a blissful change in the field of education, literature, art , drama, radio, video, T.V. film and all publication media. Our thinking process will change and so shall be the society". Late Padmashri Dr. Laxmi Narayan Sahoo, a member of the Servants of India Society at the time he heard him came forward voluntarily to help and co-operate with him for starting launch Movement.

A Message from London

Dear Mr. Kumar Bhai,

We certainly agree one hundred percent with you that absolute moral standards such as honesty, purity, unselfishness and love together with seeking and following God's guidance daily are the best ways to change the world and each man needs to start from himself.

If we all do this with all the passions at our command, our efforts will run together and we may just be in time to save crumbling world.

Comments and Messages

Late Acharya Harihar Dash

I am sure, all must be realizing the great necessity of this movement. I hope all learned men and women of the world will come forward to offer their services for the success of the movement.

Though shri Kumar Bhai is young his vast and ripend knowledge reminds me of Nachiketa (the admirable child who knew and Could tell all about the secrets of life, death and divinity). May God bless him with a long life and with a happiness of seeing and showing a decent world.

Late Morarji Desai

Former Prime –Minister of India

Dear Kumar Bhai,

I must congratulate you for the spirited determination you have for the Movement. In the present society fascination for vulgarity is increasing and masquerading under guise of literary and artistic productions and that of requirement by the public of films in a vulgar manner.

This is great danger and requires to be met with determination. I wish your success in your heroic efforts.

A Message from Shantiniketan

It is really a rare fortune for the students, staff and inmates of this sacred institution to have the opportunity of hearing Pujya Shri Kumar Bhai the founder-Director of the International Indecency Prevention Movement. He was very kind to pay a visit to our university as a guest of the University Students' Union.

The inspiring speeches and the psychological drama "Naba Yatra" (The New March) staged by Bhai on the 17th and 18th

evening brought a psychological revolution for self –purification and introspection among the students and staff of this University.

The auspicious visit of Pujya Shri Kumar bhai will be recorded in the History of Viswa Bharati as a visit of the prophet.

The entire University has deep regard for him and his noble Movement.

Anil Konar (President)
Viswa Bharati Chhatra Sammilani

SHRI BIJU PATNAIK

Chief Minister, Orissa

This is completely a different type of institution. The educational system and working way of the institution is excellent. It can change the future of our nation and build a brighter, happier future. The noble Movement and the centre of Ideal Education has impressed me much.

It is the duty of the Government to help such a noble pursuit.

DR. HAREKRUSHNA MAHATAB

I was deeply impressed and charmed visiting the institution and I also hope anyone who visit will be impressed and charmed like me. Many years ago, Rabindranath has started such an educational system at Shantiniketan for general boys and girls. Discipline is found here like public school and at the same time Babuji's non-violence, tolerance, love for all religions, Life-Science, social science and Indian culture are taught and practised here. I appeal all to help in all ways to Udayagiri & Cuttack, Bidanasi Centres.

NO ONE CAN IGNORE IT
SHRI SHYAM SUNDER MISHRA

United Nations fellow of Social Society
Member, Servants of India Society,
Controller of International Indecency Prevention Movement

The Movement that has been started through the life long dedicated service of Shri Kumar Bhai, for the prevention of indecency in all walks of life , deserves the Active co-operation of every right thinking man. Many great representatives of humanity, including Buddha, Mahavir, Jesus Christ, Mahatma Gandhi and Vinobajee have attached greatest importance to decency endeavour.

We shall be in the company of the greatest in our land if we response the cause of the Movement for the prevention of Indecency. "Handsome is that handsome does" is a saying which has only to be stated for it's truth and nobility to be appreciated. I earnestly hope that the Movement which has gained the blessings of the peak of our Country like Vinobajee, will proceed form strength to strength and attain such vitality that no one can ignore it.

For a New Peaceful Decent Era

I am glad to know that Kumar Bhai is regularly Publishing two magazines, one in Oriya 'JUGASRASTA' and the other in English 'The Truth' as a Part of his grand vision for cultural rejuvenation of the society by Preventing indecency in all its aspects and forms.

In this respect the two magazines are unique and charter a new course. They seek to improve our sensibility and aesthetic appreciation. They also provide glimpse into our rich heritage and into the beautiful and sublime. In a way, they seek to open our minds of the higher and nobler aspects of our being.

When Kumar Bhai at the tender age of fifteen launched his movement for "Prevention of Indecency" in Arts, literature, Drama, Dance and other forms of expression he perhaps never realized that he was touching the top of an ice-berg. The various forms of indecency in different aspects of modern life are

expressions of rapid social and economic changes taking place in the world in general and our country in particular. In our country the traditional value system is being undermined by our exposure to the permissive culture of affluent societies of the west. It is possible for our country to become as affluent as these countries are on account of population pressure, scarcity of resources, the danger of pollution from massive industrialization and inability of commander resources from other countries. Therefore it is not wise to allow the sickness of the affluent societies to sap the vitality of our system.

We should have a philosophy of life which calls for moderation of wants, for ecological balance, respect for all life, and not a philosophy which believes in multiplication of wants and efforts to satisfy them through an industrial system which produces aggression, violence, competition, want on destruction of life and subservience all values to commercial principles. If we seek to have a social order which is not meant for the affluent few but for the happiness of all, than moderation of wants to what is necessable, and desirable, should receive top priority. This would make it easier to establish peace, 'harmony, Co-operation, mutual respect and love. It is really remarkable how it was left to a young boy of fifteen to draw our attention to this problem, the other expression of which is indecency in its various forms.

In the story of the "King and his new clothes, it was left to a small child to discover that the King was really naked and he was wearing no clothes Similarly it was in 1962 Kumar Bhai when he was fitten years old discovered the nakedness of society in spite of the high flaunting modernism.

Kumar Bhai has now realized that the problem is not so simple. It has deeper roots and it is international in scope. He has not been satisfied merely with the prevention of indecency but to prepare the ground for a new awareness so that eternal values

of life and society are not lost sight of. As he is not only a man a profound ideas but also a man of systematic bold and determined action, he has realized that changes in mental attitudes can only take place if the new leaders of thought and action are kept uncontaminated from the polluting atmosphere of the present social environment. Therefore he started his International School of Decency International Centre for Ideal Education which "will teach man from his very childhood the art and ways of real honest, sincere, disciplined, loveful, dutiful, blissful living through training and proper building of mind" (quoted). How to get a steady supply of men and women to work for the various institutions started on the aegis of International School of Decency, the International Centre of Ideal Education? Already a band of devoted and self sacrificing teachers are working with great zeal in the residential schools started by Kumar Bhai. But if the ideal education is to extend to all spheres of art, science and culture, the demand for ideal teachers would be enormous. With this in mind, Kumar Bhai has plans to establish Training Centres for shaping ideal teachers, leaders, Administrators, writers, Journalists, Engineers etc, to cater to the need of different ideal Educational Centres and of the new society.

The work is colossal in scope and dimension and one may wonder how this can be done. But Kumar Bhai is taking small, steady, sure but significant steps towards reaching his ideal. During the last 10 years, the progress he has made is really remarkable. But compared to the stupendous nature of the task and its far reaching character, the result achieved so far may be significant but not big enough to create a deep impact on society. But this is no one Man's job and no one man's concern.

This call for a mass movement led by people who really care to arrest the trend towards declining values and its disastrous effects. If we want to save our children and grand children from

becoming civilized barbarians, then the only way to do this is to re-establish and restore those eternal value of life which can only give peace, harmony and love to mankind. Therefore all of us who feel that we should get together and help Kumar Bhai in any manner we are capable of towards creating a new society.

Ex- Vice Chancellor, Sambalpur University, Ex. D.P.I.

How to bring a blissful change in the society

If we really want to bring a blissful change in the society we will have to change the mental-attitude, thinking-process, taste and belief of the people first and to bring this change we must bring a blissful change in literature, art, journals, all publicity materials, radio, T.V. programmes, FILMS and in the educational system from Primary Education. Otherwise the entire society will be ruined.

TO THINK

- Crime and violence are rising faster than population.
- We are speaking of socialism but are gradually marching towards individualism.
- We are shouting for world unity, but small families are being divided for too much of selfishness. Husbands and wives want separation. Sons and daughters want separation from parents.

- Cases of divorce are increasing, casting very harmful influence on the children.
- We have reached the space and then moon but we have not reached our nearest one's heart.
- Some men are gradually becoming heartless beasts and some heartless machines.
- Without touch with the humanity We can never enjoy or realize the significance and charms of human life.
- People are getting beastly pleasures and beastly death for their beastly actions.
- We are longing and advocating for world peace, but are preparing for destructive wars and trying to create a competitive atmosphere in arms race.
- We are fighting for ISMS, losing HUMANISM which is the main spirit of all isms.
- Without HUMANISM human society is losing the right to exist. Human-society will be in ruins if immediate effective effort is not made to save and restore HUMANISM.
- What is the use of fighting for isms or boarders if at last such fighting will burn the entire world and human-society.
- The human civilization will be under ashes if we do not stop shrewd-arguments and wars for isms or boarders.
- Let us keep humanism above all isms and the interest of the human society above all individual, family, country or party's narrow interest.
- Let any Party rule any where or not but let it think, speak, act and Co-operate to establish humanity, Love and peace in the world stopping the mad-race for grabbing wealth or power.
- Let all the nations of the world accept the proposal of introducing compulsory course of the "ART AND SCIENCE OF PEACEFUL LIVING" and "SCIENCE OF Humanity" Moral Science in which noble blissful qualities of humanity are to be taught and practised from childhood to college education.

SOME QUOTES FROM KUMAR BHAI

- Success in nobel perseverance comes after a series of trials and failures but it is sure to come.
- Let all our thoughts, words and actions be constructive, optimistic, noble and blissful. Then we can search out greatest blissful success through a series of trials and failures.
- Never become a pessimist or sadist. You can gain nothing by pessimism or desperation. You will not be able to do, what you could have done if you lose hope, patience and tolerance.
- Close your eyes. Look within, Search for your undefeatable blissful divine spirit and strength. You will find it and conquer all failures, achieve real success. Peace, happiness and bliss in life.
- You can change the thinking-process, taste, belief, living way and systems of the society by your influential personality, honesty, sincerity, impressive blissful actions, noble human qualities, constant blissful perseverance, tactful leadership and strong administrative power.
- Keep the interest of the nation and human Society above your own individual, family or party's interest.
- Oh my dearest ones! Utilise all your gifted intelligence, Knowledge, strength power and talents in the best blissful way for the best blissful service of mankind.
- Never waste or mis-utilise your intelligence, time, knowledge, strength, wealth, power, talent in unnecessary useless programmes for harming the society.
- Time is flowing. Time is valuable. Do not Waste a single moment. Utilise every moment of yours in best blissful, useful thinking, writing, discussions and works. You and the society will be greatly benefitted.
- Keep yourself calm and optimistic in every situation.
- Never allow opportunism to grow.
- Keep yourself far from bad companions, bad books bad magazines unhealthy harmful dramas, T.V. programmes and

films, bad thinking, bad writing, bad discussions and bad actions.

- Whatever that is harmful for the Society is bad, indecent and sin.
- Whatever that is blissful for the society is good, decent and virtue.

HOW UNHEALTHY LITERATURE AND FILMS HAVE HARMED OUR SOCIETY.

From a survey report it has been found that unhealthy vulgar literatures and films have created a very low and harmful taste among the youngsters and people and have lead them to all sorts of crime, barbarism, sex-perversion, painful dangerous sex-diseases, weakness, robbery, smuggling, drinking, revenge, greed, mis-spendings, murders and suicide.

Harmful bad thoughts and vulgar fashions are circulated swiftly through unhealthy literature and films.

Outward showiness and vulgar fashions that arouse temptation in a vulgar manner have increased.

Depth of love and understanding have decreased. Love is wrongly portrayed, so life is gradually becoming love-less, business-oriented and artificial.

Thirsts are created but not quenched. So man is losing concentration in studies, duties and noble works and is becoming mad to quench his thirsts in unlawful, harmful ways which leads to more dissatisfaction and frustration at the end.

A dacoit has confessed that his sardar often says "We shall take revenge like Sholay". Sholay is a well-known film in which mass murder of the entire family including small children was shown for taking revenge on a dutiful Police-Officer.

Some smugglers have admitted that they got the idea of smuggling and learnt the art of smuggling from films.

Young educated bank-robberies admitted in the court that they learnt bank robbery from English films. Some students raped their teacher and some their cousins after seeing hot films.

Many many brilliant students and children admitted that they started drinking liquor to forget their sorrows as in most of the films they see that the heroes or a good man starts drinking when ever any sorrow comes in their lives.

We humbly pray to the Prime Minister and the Ministry of I&B to verify and censor the story, scenarios, dresscharts, dialogue, lyrics and directional scripts of FILMS once before production so there will be no question of loss of money.

If our Prime Minister, Chief Minister, other minister and officers pay surprise visits to different areas and different Govt. offices, shops, schools, college, hospitals, know the real problems of the people there and take immediate strong effective actions honestly, insincerity, injustice, corruption, adulteration, oppression, laziness, sorrows and problems will surely decrease and we will have a better, happier, healthier, disciplined, loveful, blissful and peaceful society.

-Shri Kumar Bhai

WHAT IS TRUTH

It is very hard to know what is real Truth, First please find out and know what is Truth.

We all generally say in our local language "Light is burning" but actually light is created when something burns, It may be match-stick or an electric bulb.

A man, without humanity and regulation cannot be called a man.

A man does not commit crime. His unbuilt, uncared mind, improper education and irregulated beastly instincts force him to do crime.

Much importance is now being given for physical development and development of examination oriented education of our children and students, but mental and moral development has been neglected. So we are becoming educated and well-dressed beasts.

We have reached moon and the space but we have not reached our nearest one's heart.

There are wars for so many isms in the world now but where is humanism ? (the main original strength of human being)

Without humanity how can a humanbeing except to realise the charms and significance of human-life ?

Beastly desire can lead only to destructive transitory beastly pleasure.

With pretence how you except to enjoy the divine charm of reality ?

What ever that is real blissful for the society is punya or virtue. What ever that is real harmful for the society is papa or sin, (Please think why the word "REAL" is added)

An angry man is running to murder a man who is hiding near you. The truth there is that a man's furious anger is going to murder a man, not the man It is your duty there to try your best to save the hiding man from being murdered, save the angry man from anger and from the great sin-of murder. Neither anger nor murder is blissful or accepted as Truth.

Salvation remains far from the man who runs after salvation because desiring own salvation is selfishness and no salvation can come through selfishness.

When a man forgetting his own comforts prays and works for

the peace, happiness and salvation of the society "Salvation" comes to him unasked.

God has given thirst and hunger to every one. There is no sin in quenching your thirst or hunger but you must quench the same in an unarmful, blissful, regulated way. So that society will not be harmed Rather you will get more strength and calmness for best blissful service of mankind.

Without regulated mind, honesty, sincerity and hard labour no economical or social development can be expected.

We speak of socialism but are gradually marching towards indivisualism.

One Hippie once said to me after hearing my speech "We thought we are most sexy and sex-free but now I feel we have become sexless diseased and bound in chains of bad habits".

Less knowledge on "Reality" is the cause of this mad race after opportunism, shrewdness, vulgar fashions, out-ward showiness.

When man doesn't get good healthy food to eat he takes whatever is available. Even highly qualified people are bound to eat adulterated food or food stuff.

What do you mean by advancement ? Indiscipline, shoutings, unlawfulness, desiring maximum comfort with minimum labour or no labour, out-ward showiness, vulgar fashions, sex-perversion, diseases for unrestraint life and adulterated food, separations, pretence, deceivings false-vanity, greed for wealth and wars for power, frustration and mad march towards self destruction ? Please think deeply and change your way of thinking and living.

IF I HARM OTHERS

If I harm others I will be harmed,
If I love honesty, I will be loved
If I hate others, I will be hated
If I cheat others, I will be cheated
If I blame others, I will be blamed
If I defame others, I will be defamed
If I help others, I will be helped
If I slap others, I will be slapped

My dear Brothers and Sisters of the World,

Crime and violence are rising nine times faster than population and the world is under the threat of Atomic wars and total destruction. We are shouting and fighting for isms killing humanism. Our greed and thirsts are increasing .We have regulated spacecrafts but have failed to regulate our instincts. We are speaking of socialism but are marching towards selfishness.
